Projects

Music Player (May 2023-July 2023)

Developed a music player application using HTML, CSS, and JavaScript. The application features a clean user interface, allowing
users to seamlessly navigate through their music library, play, pause, and skip tracks. It leverages the power of JavaScript to
handle audio playback, playlist management, and user interactions, providing a smooth and responsive experience.

E-Commerce Sneaker Store (Jan 2024-April 2024))

By leveraging the strengths of HTML, CSS, JavaScript, and Bootstrap, I have created a visually appealing, user-friendly, and
feature-rich ecommerce store for selling sneakers.
